SKILLS

Technical Skills	Python, HTML, CSS, JavaScript, Node, React, Java, C, R
	npm, CLI, Unix/Linux, Git, Version Control, SQL, Databases
	Unit Testing, Test-Driven Development, Object-Oriented Development
	Web Development, API, Computer Science, Computer Architecture
	Computer Networking, TCP/IP, Data Analysis, Data Structures and Algorithms
	Clean and Readable Code, Windows, Microsoft Office, Technical Support
Soft Skills	Customer support, Strong written and verbal communication skills, Collaboration skills

EXPERIENCE

International Student Office Technical Support   Jan 2024 - May 2024
SUNY Brockport   *Brockport, NY*

- Handled Inquiries: Managed a high volume of calls, emails, and in-person visits, providing timely and accurate information to international students regarding various campus services, utilizing Microsoft Office technologies to efficiently track and organize communication.
- Database Management: Utilized the university's database directory to look up and verify student information, such as application status and document submissions, ensuring confidentiality and accuracy.
- Student Support: Assisted international students with inquiries related to on-campus jobs, housing options, tuition payment processes, scholarship opportunities, and exchange programs, leveraging Microsoft Office tools to maintain detailed records, create informative documents, and streamline support processes. Welcomed and assisted students who visited the office in person, providing immediate support and guidance on various matters.

Software Engineer Intern   June 2023 - August 2023
Sanal Havacilik   *Ankara, Turkey*

- Started the development of a web version for aviation e-learning software, transitioning from a desktop application.
- Developed aviation e-learning software using JavaScript, HTML, and CSS; continuously learned and applied necessary methods and techniques to improve development, honing skills in these languages.

PROJECTS

[Github](#) Built several different programming projects in spare time using JavaScript, HTML, CSS, and Python. Continuously adding new projects to expand skills and knowledge. Check GitHub for more information.

EDUCATION

Bachelor of Science in Computer Science, SUNY Brockport   Sep 2023 - Jan 2025
Dean's List

Bachelor of Science in Information Systems Engineering, Istanbul Technical University   Sep 2022 - May 2023
(First year only)
